Brief Description

They do sexual programs in private locations, public roads and gold prospecting places; they assist and accompany customers men and women, of several sexual orientations; they manage individual and family budgets; they promote the category organization. They carry out educational activities in the sexuality field; they advertise the services they render. The activities are exercised following rules and procedures that minimize the profession vulnerabilities.

Characteristic of the Job

General terms of its exercise

They work on their own initiative, in the street, in bars, night-clubs, hotels, harbor, highways and in garimpos (gold prospecting places). They act in different environments: open air, closed places and inside vehicles, in irregular schedules. In the exercise of some of their activities they can be exposed to vehicles gases, to bad weather, to sound pollution and to social discrimination. There are still risks of getting STD infections, bad-treatment, street violence and death.

Formation and experience

For the exercise of the profession is required that the workers take part in workshops on safe sex, offered by the category associations. Other complementary courses of professional formation, such as, beauty courses, personal care, budget planning, as well as vocational courses for alternative sources of income also are offered by the associations, in several states.

Access to the career is open to those who are 18 or older; the average education is between fourth and seventh grade. Full performance of activities occurs after two years of experience.
